February 1, 2008

Dear Valued Customer

We are pleased to announce the merger of Diemat, Inc. and Namics Corporation, effective Feb. 1, 2008. This merger will provide enhanced service and support to our customers and better meet the demands of the expanding global electronics marketplace. The combination of our services and products offer new opportunities for customers to benefit from expanded capabilities, complimentary technologies and innovative solutions. Namics and Diemat are dedicated to bringing our experience, manufacturing and delivery capabilities to our customers to ensure mutual prosperity as we move forward.

Diemat will maintain its brand identity and will continue to operate with the involvement and technical guidance of its founder Ray Dietz. Namics will support the technology, manufacturing and marketing efforts as Diemat continues to grow.

As a leading global source for high technology insulating and conductive materials Namics has served its worldwide customers, since 1946, with enabling products for leading edge applications and superior technical support.

As we bring Diemat into the Namics family of companies, we anticipate your on-going satisfaction with our resources, service and performance. Our focus is to sustain a strong relationship with you and to develop high levels of satisfaction by meeting your future requirements for product innovation.

If you have any questions or concerns, please do not hesitate to contact us.
